

# Our HEAT Squad Impact

## We support homeowners to make home improvements.

Most of Vermont homes were built before we figured out we probably shouldn't be putting lead in paint and, apparently, before we decided we shouldn't be heating the Great Outdoors.

Homeowners want to upgrade their homes to be safer and more comfortable – and the HEAT Squad is there to help. We make home improvements manageable by offering trustworthy advice, support, access to incentives, and financing for health, safety, and efficiency upgrades so homeowners can take charge of their homes.

HEAT Squad is a service of the non-profit NeighborWorks of Western Vermont January 2021

Helping Vermonters Make Their Homes Healthy,  
Safe, Cozy, and Affordable.

HEAT Squad offers a hand up for homeowners who are looking for support and advice as they make home improvements.

## ■ Energy Audits

We acquaint homeowners with their homes by providing an in-depth tour that highlights opportunities for health, safety, and efficiency improvements.

## ■ Comprehensive Reports

We offer same day, personalized paths to cozy, snug, and comfortable homes, prioritizing home improvements and outlining potential costs and savings.

## ■ Objective Advice and Support

We hold homeowner's hands as they make decisions to improve their homes by offering unbiased advice and referrals to trustworthy contractors.

## ■ Energy Loans

We offer attractive energy loan products, tiered based on income and term, that are structured so that homeowners experience savings immediately.
